

Lema Gen

The Gen is a great sports boat for towing skiers and wake boards whilst being an excellent 4 berth coastal cruiser, ideal for holidays afloat and a great second home!

The wide beam heavy reverse chine hull gives excellent rough water capability and the design of the cockpit makes everyone feel safe when the going gets tough.

For sun worshippers the 6 seat cockpit boasts a full size sun bed and a mattress is provided for the bow. A bimini top is provided for a sunshade. The cockpit also converts to a fifth berth.

When the weather turns, a full camper canopy is included as well as a Tonneau cover.

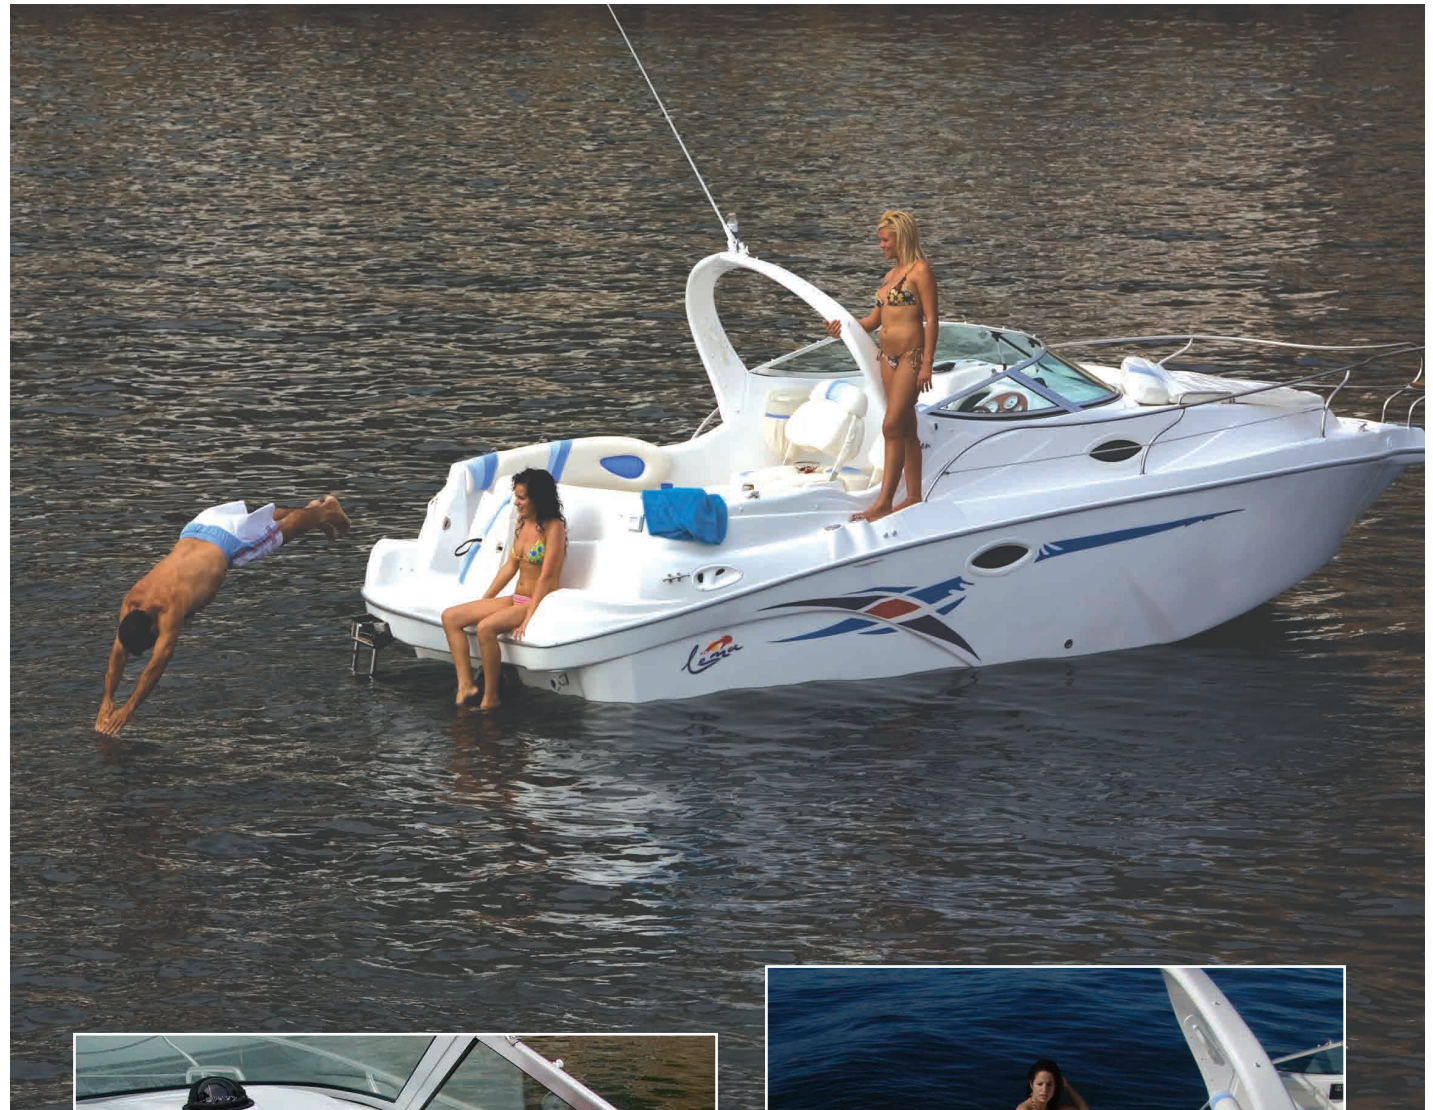

The swim platform has a wet locker, boarding ladder and a shower for removing the salt from your hair and is useful for cleaning the self-draining cockpit floor.

The bow has a large anchor locker and an electric anchor windlass is an option. Teak faced steps from the cockpit provide access to the walk around side decks. Compass and full engine instrumentation is nicely laid out on the dashboard and power steering is standard.

The cabin has teak floors and 4 people can dine in comfort, remove the table and create a comfortable double bed plus an aft cabin has two more berths. A separate heads compartment has an electric flush WC with holding tank plus overboard discharge. The Galley has a stove and sink and storage cupboards and a fridge/freezer is an option.

Power is from Volvo 130hp or 160hp diesel or 135hp 190hp or 225hp petrol, diesel engines provide a range of over 175 miles.

Cruising speed with all engines is around 25mph and top speed depending on engine choice is from 30mph to 38mph. The Gen has an operational weight of about 1900kg and on a good quality UK trailer will weight about 2600kg well within the capacity of most 4-wheel drive cars.

Colourful red and blue interiors appeal to some, whilst others prefer beige or turquoise upholstery. See some other models for photos of these alternative colours. Various cockpit colour schemes can be chosen and hulls can be plain white instead of the gel coat graphics. Camper full canopies can also be selected in any colour you want.
